Brand Story

01 — Philosophy & Vision

Sutravan is born from the ancient Indian tradition of using nature's purest ingredients for skincare. The name 'Sutravan' combines 'Sutra' (thread/formula) and 'Van' (forest), reflecting our commitment to forest-derived formulations that connect modern wellness with ancestral wisdom.

Every Sutravan product is handcrafted using ethically sourced botanicals, cold-pressed oils, and time-honoured Ayurvedic principles. We believe true beauty comes from harmonizing with nature, not fighting it.

OUR MISSION

To bring the healing power of Indian forests to everyday skincare, creating pure, sustainable, and luxurious products rooted in nature.

Logo & Brandmark

02 — Identity System

The Sutravan logo consists of two key elements: the Samarkan wordmark and the botanical emblem. These can be used together or separately depending on context.

Clear Space
